GO UNION

And Save With AT&T Wireless

Make sure your local and your staff are supporting good union jobs and getting the savings they deserve on wireless service from AT&T.

AT&T Mobility is the one and only national unionized wireless provider with 45,000 union represented workers. No other wireless company can say that. Not Verizon Wireless. Not Sprint. Not T-Mobile.

If you already have AT&T service, make sure you're saving all you can with discounts from Union Plus. If you're using a non-union company, switch now to AT&T, a union wireless company that respects workers' rights.

Help spread the word about the member discount

Besides the “bulk” discounts for locals and staff, there’s also a 15% discount available for your members from Union Plus. Some 180,000 union members are already saving on select calling and data plans from AT&T. But that means many members are either paying full price or using a non-union wireless provider like Verizon Wireless, Sprint or T-Mobile.

Help spread the word about the Union Plus AT&T discount and urge your members to support a union company and good union jobs.
